A dentist has invested £250,000 to open a practice in Greater Manchester, the third site for his business.

Dr Zuber Bagasi, founder of The Synergy Dental Clinic, which has sites in Blackburn and Birmingham, bought an existing practice on Tenterden Street, Bury.

The new practice employs six staff and took 200 NHS patients on the first day of its opening.

Dr Bagasi, who specialises in training other dentists and in implants, will offer cosmetic dentist makeovers, advanced implant dentistry and invisible braces at the Bury site.

He said: "The world of dentistry is changing all the time and we owe it to our patients to keep ahead of developments."
